Product description

Metal OMB filter without a hole and with a plastic reinforcing cage
(liquid phase) - paper with reinforcing mesh

Most often used in the OMB electrovalves and in KME installations such as Diego and Nevo.

High-quality filter paper keep dirt from 2 µm.

Regular filter replacement every 10-15 thousand. km ensures adequate lifetime of the entire LPG installation with the vehicle.

A filter from the Polish producer FILGAZ

Dimensions [mm]
outer diameter: 25
