LPG GPL Liquid phase filter used in the TOMASETTO reducer - metal FLPG09

Price	1.50 Euro
Availability	Always on stock
Shipping time	24 hours
Number	PT-FLPG09

Product description

Metal Tomasetto filter without a hole, with a plastic reinforcing cage (liquid phase) - paper with reinforcing mesh

Used in Tomasetto AT07 integrated regulators for second generation installations, as well as AT09 for sequential gas injection installations.

High-quality filter paper keep dirt from 2 µm.

Regular filter replacement every 10-15 thousand. km ensures adequate lifetime of the entire LPG installation with the vehicle.

A filter from the Polish producer FILGAZ

Dimensions [mm]

outer diameter: 35

internal diameter of the hole: 16

Height: 21,5

For some LPG filters, a tolerance of about 1mm can be achieved (possible squeezing of gaskets)

This product has additional options:

Internal diameter: 16mm

Type of the filter: liquid phase filter

Type of LPG filter cartridge: blotting paper with reinforcing helix

Outer diameter: 35mm

Height: 21,5mm
