Product description

Repair kit LPG with orings used in TOMASETTO reducers

Used for Tomasetto AT07 integrated reducers for second generation installations, as well as AT09 for sequential gas injection installations.

Metal TOMASETTO LPG filter without a hole
(liquid phase) - paper with reinforcing mesh

High-quality filter paper keeps contaminants from 2 µm.

Regular filter replacement every 10,000 km ensures adequate lifetime of the entire LPG system in the vehicle.

A filter from the Polish producer FILGAZ

Dimensions [mm]

- outer diameter: 35
- inner hole diameter down: 16
- height: 21.5

With some LPG filters, a tolerance of around 1mm can be accepted (possible squeezing of gaskets)

This product has additional options:

Internal diameter: 16mm

Type of the filter: liquid phase filter

Type of LPG filter cartridge: blotting paper with reinforcing helix

Outer diameter: 35mm

Height: 21,5mm
