## Product description

**New ProjektTECH LPG GPL diagnostic interface cable compatible with AG autogas systems**

Supported ECUs:

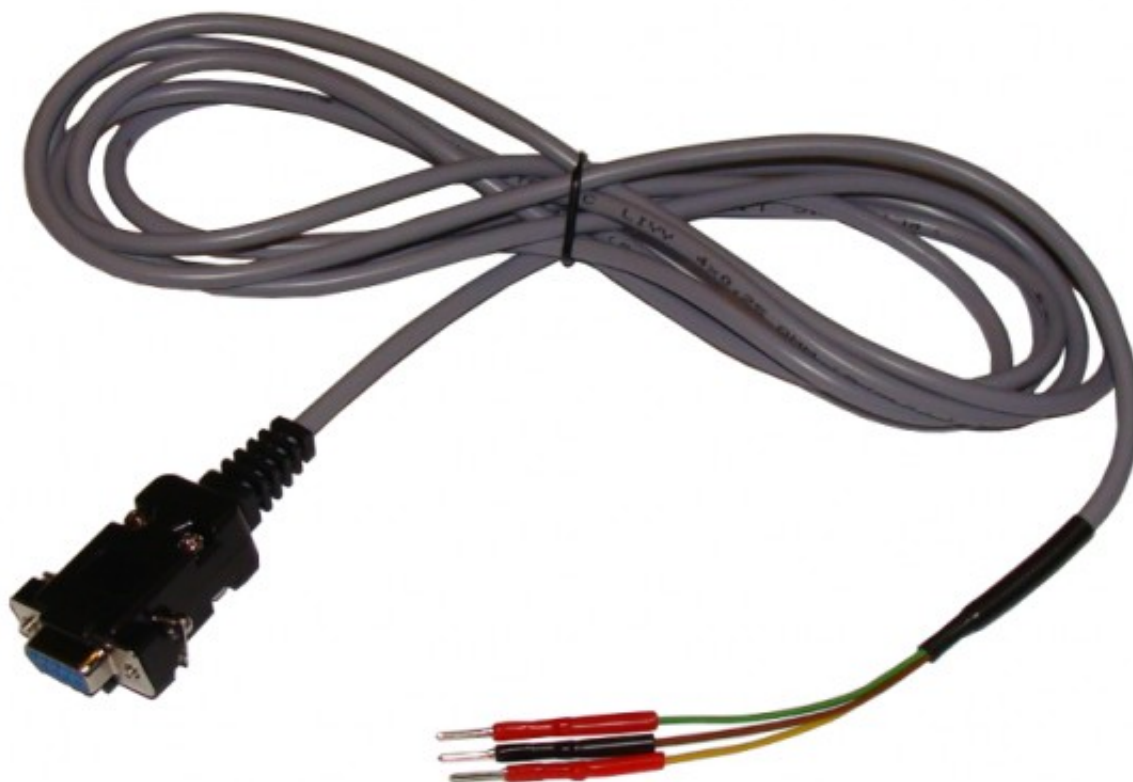

- **AG** SGI DGI I (type 1)

Free pins (see real picture) - [schematics and instruction of use included](#)

Interface comes with CD (drivers, manuals and free software **only for MS Windows '98** - it is very old ECU and software)

Interface is designed to RS232 (DB 9-pins) standard serial I/O in computers

Real view

## Specifacaton

LPG diagnostic interface made by ProjektTECH with RS232 true serial port. Designed for workshop use. Genuine electronics, strong and flexible cable and additional safety components make our devices stable and safe.

The interface allows full diagnostics of the LPG system as well as adjustment (calibration, switching temperature, switch RPM, etc.).

## Specifications:

- RS232 diagnostic interface works without installing drivers
- SERVICING 100% of the functions of gas controllers
- 5 meters solid cable wire
- Works on MS Windows '98

## Kit Contents:

- NEW diagnostic interface
- Receipt or invoice as warranty (easy swap or full refund)
- Guide / connector table (printed)
- TECHNICAL SUPPORT - If you have problems, we will answer your questions and provide you with links to websites with free access to a rich database of LPG files.
