Real view

This product has additional options:

Electronic protection: FTDI HVP professional with High Voltage Protection

Specificaton

LPG diagnostic interface made by ProjektTECH with USB FTDI equiped with high voltage protection. Designed for workshop use. Genuine electronics, strong and flexible cable and additional safety components make our devices stable and safe, regardless of the external factors generated by the operating engine and vehicle components.

The interface allows full diagnostics of the LPG system as well as adjustment (self calibration, maps, switching temperature, rotation, etc.).

Specifications:

- RS232 interfaces work without installing drivers
- additional protection systems (overvoltage and reverse polarity)
- trouble-free cooperation with the latest diagnostic programs
- SERVICING 100% of the functions of gas controllers
- 4,5 meters solid double shielded wire (aluminum screen + braided steel bundle)
- reinforced cable ends
- Rain-resistant interface (rubber flanges, SMD controls inside the enclosure)
- Works on Windows 10 and all previous versions
- 3 x LED in housing:

READY - ready to work, Vcc

IN - transmission is beeing to the PC

OUT - transmission is beeing to the vehicle

- Interface electronics (PCB PCB) is machine made in SMD (FR4 epoxy) technology - enclosed in a sealed enclosure approximately 0,7 m from the PC socket

Kit Contents:

- NEW diagnostic interface
- Receipt or invoice as warranty (easy swap or full refund)
- Guide and connector table (printed)
- TECHNICAL SUPPORT - If you have problems, we will answer your questions and provide you with links to websites with free access to a rich database of LPG files.
